Universidad de Guadalajara en linea (Remote)

August 2020 – In progress (EGT. 2024)

- Bachelor in web development

Security Audit specialist

Company name confidential, Guadalajara (Remote)

2021–Present

- Receiving and processing at least 40+ daily scam reports where users describe their scenario and the proper decisions along with the corresponding action is taken to prevent losses by sending/receiving assets to/from fraudulent sources by blacklisting blockchain addresses and taking internal decisions to stop providing services to existing users.

Customer advocate

AT&T, Guadalajara, Mexico (Remote)

2020–2021

- Learnt how to collect money as soon as possible, as much as possible and as human as possible, with a goal of at least 1000 USD daily and achieving it 92% of the time. By my own means I read about negotiation strategies and applied on the job. This has been a remote position since the beginning.

Client tech support associate

NTT data Guadalajara, Mexico

2016–2018

Give tech solutions to customers in hospitals within the US and even grant remote support through their computers, this included ticketing systems, active directory, ticketing systems(**Remedy**), **IMMS** and mainframe **CITRIX**, **VMWare**, **active directory**, **IMMS**, **mainframe**, **MS Office**, **MS Outlook**, **Internet Explorer**, **Antivirus**, **remote support** and **peripherals** support and configuration. Due to the outstanding support and knowledge accomplished, I was given the responsibility of replying to the hospitals' corporate emails and provide floor support to my coworkers instead of taking calls.
